EDUCATION

Degree	Institute	CGPA/Percentage	Year
B.Tech Computer Eng	R.C.Patel Institute Of Technology, Shirpur	7.46	2025
12th (HSC)	Madhyamik Vidyalaya, Tarhadi	86.7%	2021
10th (CBSE)	Kendriya Vidyalaya, Dhule	82.2%	2019

EXPERIENCE

Full Stack Developer | AISOLO Technologies Pvt. Ltd. Navi Mumbai Jan 2025 - Nov 2025

- Designed and implemented 3-5 web applications using React, Spring Boot, and Node.js, handling production traffic for internal and client-facing systems
- Contributed to technical architecture decisions for microservices implementation, improving code modularity and reducing deployment complexity

Java FullStack Developer | R3Sys Pvt.Ltd, Nashik Jun 2023 - Jul 2023

- Engineered enterprise-level applications using Spring Framework and Spring Boot with MVC architecture, implementing RESTful APIs and microservices design patterns
- Built responsive web interfaces using JSP, Servlets, and integrated Spring MVC controllers for seamless frontend-backend communication

SKILLS

- Programming :** Java, JavaScript, TypeScript, PHP, SQL
- Backend :** Spring, Spring Boot, Spring Microservices, Node.js, Express.js
- Frontend :** HTML, React.js, Redux, React Native, Next.js, Angular
- Databases & Technologies :** MySQL, PostgreSQL, MongoDB, Spring JPA, Prisma ORM
- Tools & AI frameworks:** Git, GitHub, Maven, AWS, Docker, Redis, Langchain, Spring AI

PROJECTS

LG Data Diary Student Management System | Spring MVC, MySQL, JSP 

- Implemented comprehensive student information system using Spring MVC with centralized data management.
- Optimized administrative workflows & built a guardian-educator communication portal for better engagement.

SmartLinker Contact Management System | Spring Boot, Spring Security, MySQL 

- Developed a secure contact management system with CRUD operations, role-based access, and social login using OAuth 2.0.
- Integrated Cloudinary for images and Mailtrap.io for email verification, enhancing user experience and security.

ExplainX- AI-Powered Learning Platform | Next.js, Express.js, Pinecone, PostgreSQL 

- Built intelligent learning platform using RAG architecture with vector embeddings for AI-driven learning
- Implemented knowledge ingestion pipelines to preprocess documents, generate embeddings, and synchronize data between PostgreSQL (metadata) and Pinecone (vectors)

CERTIFICATIONS

- Java Full Stack Developer – Wipro Certified 
- Web Development Bootcamp – Angela Yu 
- Spring 6, Spring Boot 3, Spring AI – Telusko 
- Front/Back-End Development – Meta 

ACHIEVEMENTS & ACTIVITIES

- Team Member – Akatsuki Coding Club, RCPIT 
- Winner Smart India Internal Hackathon (80+ teams)
- Copyright – DNS Resolver & Web Security 
- Tutored 200+ Students – JavaScript Nodevember 1.0
